

Gerhard Treiber

About

Independent, organized, reliable and motivated web designer with multiple completed sites from initial mock-up, prototype to satisfied customer. Proven leader managing customer experience and employees in the hotel and restaurant industry. Last two years expanding upon previous web design skills to build and design web projects.

A great team player able to drive employees and peers during high stress situations; personable, customer-focused; easily picks up new skills; eager to learn; great with calculations, and an excellent memory for customer requests.
